English

Telugu

Hindi

SKILLS

Communication Skills

Time management

Results oriented

Creative champion

Highly motivated

Great attention to detail

High degree of flexibility

As a motivated Software Engineering student studying Information Technology, I'm excited about using the latest technologies to create creative solutions that help people. I'm good at programming and paying attention to details, and I work hard to make high-quality software that goes beyond what's expected. I want to use my skills and work with great teams to push forward in software development and technology.

CERTIFICATIONS

Data Analyst (26/11/2022)
Rejolt Edtech Private Limited

python fundamentals & personality development (01/04/2021)
Parivarthan club- IIT Kharagpur

Cloud Foundations (08/05/2023)
Great Learning

Cloud computing (12/01/2023)
simplilearn

Bootcamp on Data Visualization (Tableau DataViz Challenge) (01/07/2021)
Smart Internz

Introduction to Devops (15/06/2023)
Great Learning

PROJECTS

Venue Booking System
(HTML,CSS,SQL,javascript)
Simplify event planning with this intuitive web-based venue booking system. Developed using HTML, CSS and Js.

Skin cancer detection
(ML, Tensor flow)
Skin Cancer Detection with TensorFlow: A powerful CNN-based model for identifying skin cancer from images. Improve early detection with this AI-powered tool.

Ecommerce website
(php, sql)
PHP and MySQL-powered online shopping system. Browse, buy, and manage products effortlessly. Build your own online store with ease!

TECHNICAL SKILLS

C	Java
Python	mysql
HTML	Javascript
php	VS code
